THE INSTITUTIONS

LOYOLA COLLEGE

Loyola College, Chennai was established in the year 1925 with 75 undergraduate students of Mathematics, History and Economics. The college was granted autonomy in 1978, and in, 2004, the UGC conferred upon it the status of a College with Potential for Excellence, which was reaffirmed in 2010. In recognition of its sustained excellence, the UGC elevated Loyola College to the status of College of Excellence for the period from I" of April 2014 to 31 March 2019.

Currently, the college hosts around 9,500 students across 24 undergraduate and 21 postgraduate departments, with research actively conducted in 15 of these departments. Loyola is committed to delivering quality education through a comprehensive range of academic programs, innovative teaching methodologies, and intensive research initiatives.

LOYOLA-ICAM COLLEGE OF ENGINEERING AND TECHNOLOGY (LICET)

Loyola-ICAM College of Engineering and Technology (LICET) was established in 2010 as a collaboration between the Loyola College Society, Chennai, and ICAM, France. Situated on the Loyola College campus in Chennai, LICET provides state-of-the-art facilities, international opportunities, and industry-linked programs. LICET aims at training young men and women of quality, capable of leading the society in all walks of life who would serve their fellow human beings in justice, truth, love and compassion. This training will bring in desired change in the lives of people, more particularly the poorer and marginalized sections of the society and Dalits. Through institution-industry collaboration, LICET strives to help young men and women to find fulfillment and achieve greatness as eminent men and women for others who would be the voice of the voiceless and the name of the nameless in society.

ABOUT THE ORGANIZERS

DEPARTMENT OF DATA SCIENCE, LOYOLA COLLEGE

Data Science Department at Loyola College, Chennai. Our department has been thriving in the field of data science education and research, fostering the growth of talented individuals in this rapidly evolving discipline. With a focus on academic excellence and industry-oriented training, we have successfully prepared our students for rewarding careers in the data science domain. Since its inception in 2019, our M.Sc. Data Science program has been highly sought after by aspiring data scientists. The program encompasses a comprehensive curriculum designed to equip students with the necessary theoretical knowledge, practical skills, and hands-on experience required for a successful career in data science. Our students undergo specialized training to enhance their proficiency in cutting-edge data science techniques and tools. The program's holistic approach enables our graduates to adapt to the dynamic demands of the industry

DEPARTMENT OF CSE -LICET

The Department of Computer Science and Engineering at LICET offers high-quality technical education with a strong emphasis on cutting-edge research, industry collaboration, and student skill development. We provide international exposure and career-focused training through well-equipped labs, expert faculty, and hands-on learning opportunities. With a holistic learning approach, we empower future technologists to innovate, lead, and excel in the evolving digital world.

DEPARTMENT OF IT -LICET

The Department of Information Technology has a vibrant and active faculty who continually updates their knowledge and skills through numerous quality improvement initiatives. The department provides comprehensive education in software development, networking, and cybersecurity. With modern labs and industry partnerships, we emphasize hands-on learning. Our programs foster innovation, preparing students for dynamic careers in the ever-evolving tech industry.

DEPARTMENT OF AI & DS -LICET

The Artificial Intelligence and Data Science department at LICET, established in 2024–25, offers a B.Tech. program focused on computational intelligence and data analytics. With strong industry ties, the program ensures real-world exposure and practical insights, preparing students for the evolving tech landscape.

ABOUT THE CONFERENCE

The International Conference on Artificial Intelligence and Data Science (ICAIDS) 2024 brings together researchers, academicians, and industry experts to explore the latest advancements in artificial intelligence and data science, and their interdisciplinary applications. This conference aims to provide a global platform for innovation, collaboration, and knowledge exchange in the fast-growing fields of artificial intelligence and data science.

This conference is designed to create a vibrant academic forum for young researchers, offering them the opportunity to present their latest research findings, share expertise, methodologies, and engage in meaningful discussions on the pivotal role of Artificial Intelligence in addressing contemporary global challenges.

CONFERENCE FEATURES
- Keynote addresses by eminent professors from around the world
- Invited talks by industry experts
- Paper presentations by researchers
- Book chapter publication
- Publication opportunities in Scopus/SCI-indexed journals

CALL FOR PAPERS

Authors are invited to submit the original and unpublished research articles in the following areas (but not limited to):

Machine Learning	Gen AI, Edge AI	Data Analytics
Deep Learning	Data Engineering	Data Visualization
Reinforcement Learning	AI Engineering	Data Modelling
Cyber Security	Block Chain Technology	AI & DS Applications
